

Patch Program

Show Me Camper

Are you into camping? Do you love seeing what's around the bend, over the hill, or down the stream? Are you interested in checking out as many of Girl Scouts of the Missouri Heartland's outdoor program centers as possible?

We now have a special multi-segment patch featuring five of our program centers! All four of Girl Scouts of the Missouri Heartland's resident camps are featured in this patch program, along with Silver Meadows Program Center in Boone County. We've got some great places for outdoor fun, including Cherokee Ridge and Latonka Program Centers in Wayne County, Mintahama Program Center in Newton County and Finbrooke Program Center in Christian County. Come check them out while you complete this patch program!

Requirements:

- Spend the night. This can be part of a troop camping, council event or summer resident camp experience.
- Name three activities that you can do at this program center.
- Name three buildings, sites or paths at this program center.
- Know where the emergency shelters is in case of bad weather.
- Pick up five pieces of litter and properly dispose of them.
- Identify and find one type of tree found on this program center's grounds.

That's it! Get out there and check out what Missouri Heartland's program centers have to offer!

Once you have completed all of the requirements, you can purchase the patch from one of the GSMH retail shops.
